The "truth" about Bill Cooper

I am enclosing a lot of background information about Bill Cooper for your review.
Both you and the El-Legions owe it to yourselves to look it over and check it out inasmuch as Omega is now, rightly or not, considered to be a Cooper apologist. At one time I thought Cooper's material was worthy of public examination and I co-produced his first appearance in Sedona, which was videotaped. I also came to his defense when I discovered his material was being plagerized by DHARMA and the Phoenix Journals.
However, I later learned that Bill did not tell the truth and that he has little or no professional ethics.
I recommend that you telephone Posty Armstrong in the Village of Oak Creek and ask him about the fiasco involving the German conference. I suggest you talk to Gordon Jean in Cottonwood about the four tires Cooper slashed on his car. I suggest you check the LAPD and the Yavapai Sheriff's Office for a record of complaints they have on Cooper.
While I am thinking about it remind the El-Legions that Cooper never was an officer as they describe him in your last issue. Even Cooper does not claim that in his material.
Hal Weisberg, my friend of 25 years ago and author 4 or 5 of the early and important books on the Kennedy assassination, figured Cooper out early on. So did Lars Hansson, who by the way, accompanied "Bo" Gritz to Sedona a few weeks ago and was given 15 minutes by Bo to explain Cooper's fraud in using the so-called Greer material.
Check Bill Hamilton, a long-time UFO researcher about Cooper. Check Bill English about Cooper. Do check John Lear, Robert Lazar about Cooper. Check Martin Cannon about Cooper. Check Gene Hough about Cooper. Check Don Eiher of UFO magazine about Cooper (there's a lot he didn't print).
Check George Green of American West (publishers of the Phoenix Journals) about Cooper's threatening phone calls.
Also, for whatever it's worth, I took the time to run down the title Cooper planned for his book and learned it had been used before in 1985. I warned Cooper, particularly since he had complained of plagerism. The book, out a week or so ago, retains Behold a Pale Horse.
The El-Legions are way off base picking on "Bo" Gritz and as a consequence of backing Cooper without checking him out (even as Cooper himself asks his audiences to check him out) stand exposed as naive and gullible. All credibility as valid communicators "with the Space Brothers of the Galactic Federation and the Ascended Masters of the Spiritual Heirarchy", as well as being a responsible telepathic channel, is held in serious question.
Ask Michael and Aurora why they were married at 4 p.m. in Mt. Shasta instead of 1 p.m. as scheduled.
I no refer to the present times as the Golden Age to disassociate from those who are bringing flashiness to the term New Age!

Cordially,
Ed DeMar

Do we need yellow ribbons?

Have the yellow ribbons become a cheerleader act. We get as caught up in the Rah-Rah and forget the misery & sorrow.

I suggest a black ribbon placed under the yellow in mourning for those lost & all who will be lost.

Gulf War start of Armageddon

Most people don't know it, but this war is over religious controversy. It is a conflict between Islamic religions and other religions, and between differing cultures, it is also the result of political activities.
This war is a fulfillment of Bible prophecy. The Gulf War will continue for a long time to come. The conference with Gorbachev will be postponed.
There have been many casualties and deaths since the beginning of this war that have not been reported to you.
Biological and chemical weapons will be used to kill many Americans. There will be terrorism, great earthquakes and famine. Great volcanic eruptions will occur and massive hurricanes. It will be a nightmare for all people, and fire will fall from the sky. This war will be worse than World War II, and there will be an attempt to use nuclear weapons!
Nevertheless, see that you are not terrified for these things must take place. Read the 24th chapter of Matthew.

Start now by activating the greater nuclear power within you. Start meditating and build your protective sheild now. Take action from the point
